PROFESSIONAL PROFILE

Detail-oriented **UI/UX Designer Intern** with a strong foundation in user-centered design, usability principles, and front-end fundamentals. Skilled in wireframing, prototyping, and translating user requirements into intuitive digital interfaces using Figma. Experienced in academic and personal projects, collaborating on full-stack systems while maintaining a strong focus on UI consistency, accessibility, and user experience.

EDUCATION

● Undergraduate Bsc (Hons) Computer Science in Software Engineering Institute of Software Engineering | Feb 2024 – Present Specialization in Software Engineering & Development

● G.C.E. Advanced Level (2021(2022)) Physical Science Stream

● G.C.E. Ordinary Level (2018) Passed

TECHNICAL SKILLS

● Languages: Java, Python, JavaScript, TypeScript, HTML, CSS

● Frameworks & Libraries: React, React Native, NativeWind, Spring Boot, Node.js, Express.js

● Databases & Cloud: MongoDB, MySQL, Firebase

● Tools & Environments: IntelliJ IDEA, VS Code, Postman, Figma, Git, GitHub

- Operating Systems & Workflow: Ubuntu Linux, Windows
- Mobile Development: Cross-platform mobile apps using React Native with Firebase integration

SOFT SKILLS

- Leadership & Teamwork
- Management skills
- Problem solving
- Project Management
- Time Management
- Collaboration
- Good communication & presentation skills

PROJECTS EXPERIENCE

Flora Grace POS System (Single Page Application)

UI-Focused Frontend Project

Tools & Technologies: HTML, CSS, JavaScript

Description:

Designed a Single Page POS application with a strong focus on **user flows, layout consistency, and ease of navigation**. Improved usability by organizing screens logically and applying responsive UI principles to enhance the overall user experience.

GlowUp Salon Management System

Full-Stack Web Application

Tools & Technologies:

- Frontend: HTML, CSS, Bootstrap, JavaScript, AJAX
- Backend: Spring Boot, Spring Security (JWT), Spring Data JPA
- Database: MySQL

Description:

Designed and developed a full-stack salon appointment and management system to streamline operations and improve customer experience. Implemented user-friendly booking flows, secure authentication, and admin dashboards for service, appointment, and inventory management.

▶ Demo: <https://youtu.be/PaVr4FZ2SF0>

Complaint Management System

Full-Stack Web Application (MVC Architecture)

Tools & Technologies:

- Frontend: JSP, HTML, CSS, JavaScript (Form Validation)
- Backend: Jakarta EE (Servlets)
- Database: MySQL (Apache Commons DBCP)
- Server: Apache Tomcat

Description:

Developed a complaint lifecycle management system using synchronous HTTP communication. Focused on structured UI flows, form-based interactions, and clean MVC separation without AJAX.

PARTICIPATIONS

● Leadership & Achievements

- Serving as a Core Member of the Student Committee at Institute of Software Engineering (IJSE), contributing to student activities and community initiatives. (Oct 2024 – Present)
- Deputy Head Prefect | Kamburawala National School - 2020 & 2021 (school junior prefect - 2018)
- Western Band Leader - 2020 & 2021 (Western Band Leader & Member | Kamburawala National School (2015 – 2021))
- President | Student Committee (2019)
- Minister of Student Discipline & Welfare | Student Parliament (2019)
- House Leader | Annual Inter-House Sports Meet - 2021

LANGUAGE

- Sinhala: Native
- English: Intermediate (reading & listening), Basic (speaking)
